

## Quick and Easy Clean Off without Lifting or Bending Over!

Drop debris in one spot with a quick and easy pull of the convenient debris release handle, no bending over. Specifically designed for heavy use by professionals who need all the features of quick clean off, height adjustability, lifting power and above all durability. The Bora has it all!

### Bora Series™ FEATURES

- Debris release handle lifts magnetic housing out of the tray. Debris then drops off the bottom of sweeper, no lifting or bending over
- Control the sweeping height with three wheel settings of 1", 2" and 3" to accommodate any situation
- Double layer of permanently charged magnets for a greater magnetic field and maximum lifting power
- Maximum lifting height of 5 ¾"
- Available in three sizes to maximize efficiency and maneuverability (25", 31" and 37") The standard 19" size was replaced with a larger 37" for professionals who are time conscious and need to clean areas quickly but thoroughly
- Sturdy 8" steel hub and ball bearing wheels for durability, easy maneuvering and easy pushing
- Stands upright on its own when not in use, making it visible and less likely of being run over by other equipment and vehicles
- All moving parts are protected by nylon flange bushings to reduce wear and extend sweeper life

### BENEFITS

- Rugged durability for professional and industrial use
- Reduce flat tires and related down time by removing dangerous and harmful ferrous metal debris
- Quickly recover nails, screws and other metal debris
  - Aluminum housing with 1/8" walls, won't rust in wet or damp conditions
  - Easy to store and transport - designed to stand upright on its own when not in use
  - Clean large areas quickly

### Recommended Applications:

- Rental Centers
- Manufacturing Facilities
- Trucking and Shipping Facilities

(not for grass use)
