NOTICE: Now that the Eiger has been mounted to your vehicle using the Assembly and Installation instructions this document will detail the operation of the Eiger magnetic sweeper.

## Eiger Operating Instructions

### STEP 1 - Bump Wheels

Now that the Eiger has been mounted to your vehicle drive around with the magnet and pick up metal debris.

The bump wheels on the end of the sweeper should be about ½" off the ground when on level ground.

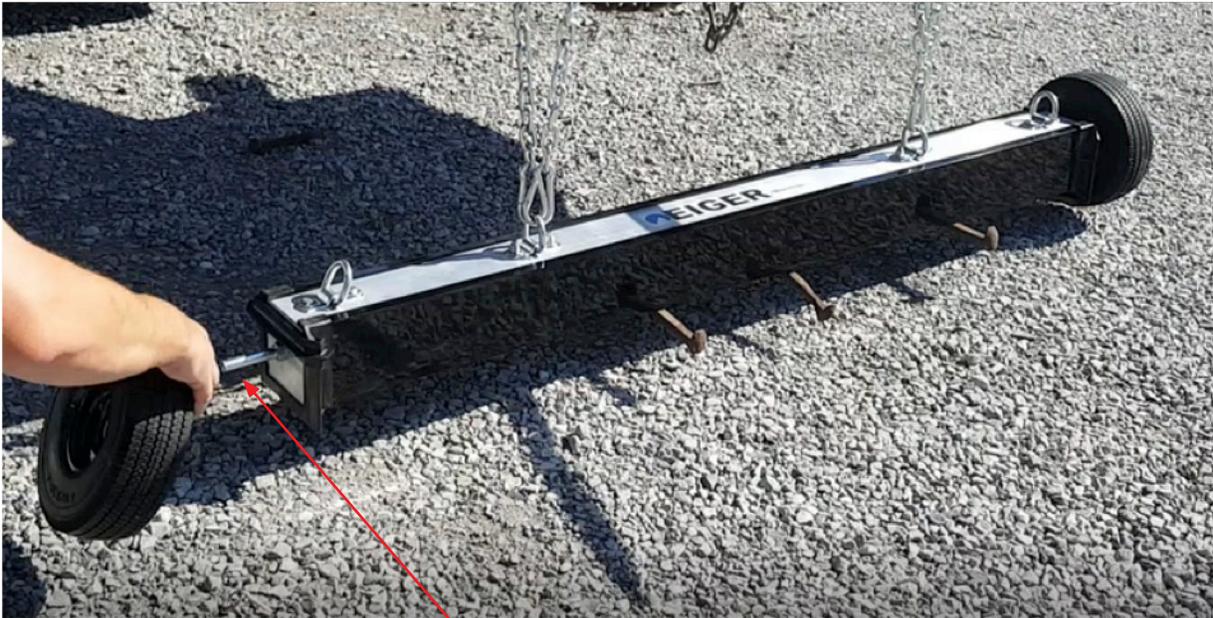

**STEP 2 - Remove Sleeve Retainer Clip**

When it's time to clean the magnet off remove the Sleeve Retainer Clip from the opposite end that you want to discharge the metal debris from.

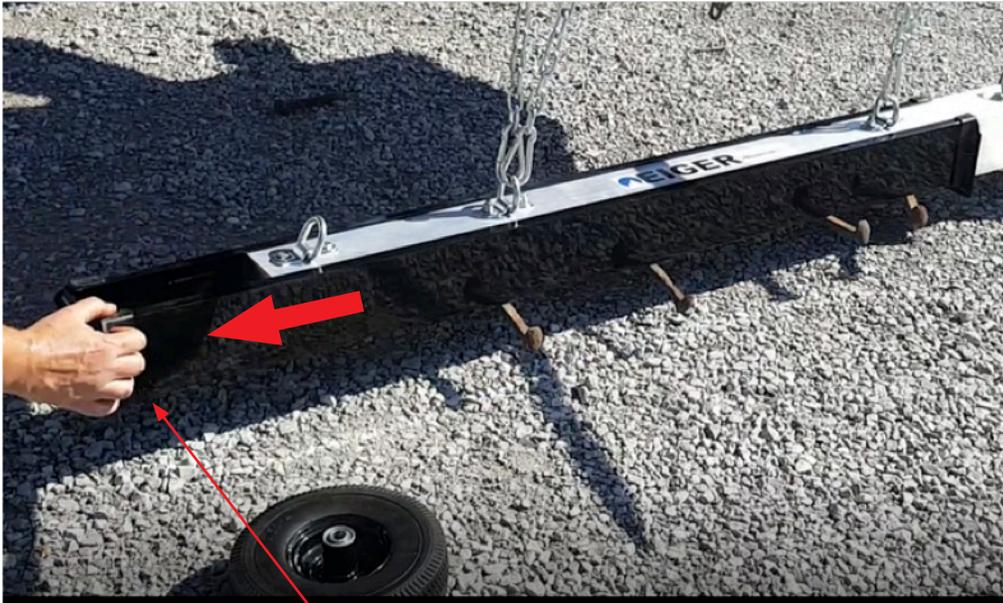

**STEP 3 - Remove Lynch Pin & Wheel**

Remove the axle Lynch Pin and Wheel

### STEP 4- Pull On Flange

Pull on the Flange on the end of the Quick Clean off Sleeve and pull the Sleeve off.

All of the debris will fall off on the side of the magnetic sweeper.

### STEP 5- Dispose of Debris

Dispose of or Recycle removed Metal Debris..

## STEP 6 - Reinstall Quick Clean Off Sleeve and Wheel

Reinstall the previously removed PVC Quick Clean Off Sleeve, Wheel, Wheel Clip and Sleeve Retainer Clip.
