

Longhorn Series™ - FIT Guidelines

FIT Guidelines

To ensure the Longhorn will fit your ATV.

The Longhorn was designed to fit almost all ATV's by utilizing the WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit as the connection point to the ATV. WARN sells the Plow Mounting Kit to fit almost all ATV's. The Longhorn Magnetic Sweeper connects to the mounting bracket that comes with the Front Plow Mount Kit.

The WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit was chosen as the connection to the ATV because WARN already determines the mounting bracket specifications to connect WARN snow plows to almost any ATV. WARN is also a highly reputable brand ensuring you can rely on their product to be engineered and fit your ATV well.

The WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit you need to attach the Longhorn to your ATV can be found at https://www.warn.com/atv/plows/provantage_mount_kits.jsp and must be ordered separately from your local WARN dealer. Your local ATV dealer is also likely a WARN dealer.

Select and order the FRONT PLOW MOUNT KIT from the list of Mounting Kit Applications.

Make sure a FRONT PLOW MOUNT KIT is available for your ATV before your purchase the Longhorn Magnetic Sweeper.

WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit

Longhorn Series™ - FIT Guidelines

To determine if the Longhorn will fit your ATV, simply call your WARN dealer and see if you can order the WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit for your ATV. If you can, then the Longhorn can be attached to your ATV.

The WARN plow mount bracket can be purchased for these ATV's

- Arctic Cat
- CAN-AM / Bombardier
- Honda
- Kawasaki
- Kymco
- Polaris
- Suzuki
- Yamaha

As an example, the Suzuki ATV we used in our pictures and videos of the Longhorn is a 2007 Suzuki King Quad 450. Looking at the WARN website (https://www.warn.com/atv/plows/provantage_mount_kits.jsp) as mentioned above to find if a front plow mount kit exists for this ATV, we find the following information as below. We can see the Suzuki King Quad 450 is on the list (circled in yellow) and looking at the furthest column to the right we can see the Part number for the front plow mount kit is 80558. We then called our local WARN dealer and confirmed that this was indeed the part number for the WARN PROVANTAGE ATV PLOW SYSTEM – Front Plow Mount Kit, and that it would fit our ATV, and we ordered the part.

If you have any doubts or questions about the front plow mount kit, or which is the correct one for your ATV, contact your local WARN dealer.
