

Economical cleaning system for larger areas

Easily tow behind any small vehicle to remove ferrous metal debris. Designed as an economical solution for keeping large areas free of harmful and dangerous nails, screws, and other scrap metal. Ideal for reducing flat tires and keeping gravel roadways, concrete parking lots or pavement areas clean of metal debris. Use the Razor when a hanging sweeper is too heavy for your equipment or areas are too large to use a handheld sweeper.

Razor Series™ FEATURES

- Housing is packed end to end with two solid layers of magnets (3"x3") or three layers (4.5"x4.5"). More magnets means more lifting and cleaning power
- Control the sweeping height with three wheel settings of 1", 2" or 3"
- Easily tows behind forklifts, ATV's, tractors, mowers or utility vehicles
- Durable and long lasting design aluminum construction that won't rust if left outside
- Available in lengths from 3' to 8'
- Available in 3" x 3" and 4.5" x 4.5" housing sizes

Quickly pick up metal debris and tow behind any small vehicle

BENEFITS

- Quicker and faster than other methods of picking up metal debris because it easily tows behind your existing equipment
- Eliminate down time costs caused by repairing flat tires punctured by metal debris
- Avoid flat tires in parking lots, shipping and trucking facilities and manufacturing facilities
- Provide cleaner, safer environments for workers, vehicles and equipment
- Inexpensive removal of metal debris from larger areas

Designed to easily attach to any drawbar hitch

Recommended Applications:

- Parking Lots
- Shipping/Trucking Facilities
- Manufacturing Facilities

Economical cleaning system to make work environments safer
