

Extend the working power of your current equipment

Instantly upgrade your existing tractors, utility vehicles, trucks, mowers or forklifts with a hanging magnetic sweeper and do two jobs at the same time. Quickly pick up screws, nails and scraps of metal from terrain such as gravel, sand, grass, concrete and pavement. Reduce flat tires and injuries and keep environments safer and cleaner. The Wrasse is designed for cleaning level terrain where wheels are not necessary to keep the magnet from hitting the ground.

Wrasse Series™ FEATURES

- Housing is packed end to end with two solid layers of magnets (3"x3") (2"x5") or three layers (4.5"x4.5"). More magnets means more lifting and cleaning power
- Easily attaches to forklifts, ATV's, tractors, mowers or utility vehicles.
- Maneuverability of your current equipment is not affected by attaching a hanging sweeper
- Durable and long lasting design using aluminium that won't rust if left outside
- Available in lengths from 2' to 8'
- Available in 3" x 3", 4.5" x 4.5" and 2" x 5" housing sizes

BENEFITS

- Quicker and faster than other methods of picking up metal debris because it attaches to equipment you already use.
- Eliminate down time costs caused by repairing flat tires punctured by metal debris
- Avoid injuries in parks, playgrounds, school grounds, horse tracks and race tracks.
- Provide cleaner, safer environments for children, animals workers, vehicles and equipment
- No extra labor costs to provide a much safer, cleaner environment

Recommended Applications:

- Horse tracks
- Auto race tracks
- School Grounds
- Parking Lots
- Parks and Playgrounds
- Shipping/Trucking Facilities
- Manufacturing Facilities
- Roads
- Airports
- Race tracks
