Bluestreak equipment

Why Choose Bluestreak Equipment?

Engineered Solutions That Work — So You Can Reduce, Reuse, and Recycle More Easily

At Bluestreak Equipment, we design and manufacture **purpose built magnetic, mechanical, and sensor based cleaning and sorting solutions** for businesses and governments across the globe. Our products are engineered to s**olve real world problems**, not just partially address them.

While many competitors offer general-purpose equipment that only half works, every Bluestreak product is developed with a clear philosophy:

Make it work. Make it last. Make it easy.

1. Purpose Built for Real Applications

Most industrial cleaning and sorting equipment is generic — built to cover "average" situations. But your environment isn't average.

Bluestreak develops **application specific designs** so each product performs optimally in the exact conditions it's used in:

- ✓ Different terrains
- ✓ Different speeds
- ✓ Different vehicles
- ✓ Different industries
- ✓ Different material handling needs

We design with your use case in mind, not a one size fits all compromise.

Result:
Equipment that **fully works**, not sort of works.

2. Durable, Long Lasting, Commercial Grade Construction

Our products are built to be **used hard and last long**.

We engineer for durability so you can lower your lifetime cost of ownership and reduce consumption of replacement products and parts. Our philosophy is simple:

- ✓ If it can be made stronger, we make it stronger
- ✓ If a failure happens in the field, we redesign to eliminate it
- ✓ If a component wears too quickly, we upgrade it

Durability isn't a slogan — it's a core part of reducing waste and lowering your operational costs.

3. Augmented Products — Not Just the "Basic Product"

Where other companies deliver only the basics, Bluestreak delivers the **complete solution**.

Every product category includes features, accessories, documentation, and design details that make it easier to buy, **easier to use, and easier to maintain**, including:

- ✓ Smart features that increase performance and efficiency
- ✓ Accessories and options designed for the full lifecycle of the product
- ✓ Clear assembly, operation, and safety instructions
- ✓ FIT guidelines
- ✓ CAD files, diagrams, and magnetic field data (where applicable)
- ✓ Real world demonstration videos
- ✓ Helpful comparison information vs. other models and competitors

We think through every step of how the product is used — from unpacking to long term operation — so the entire experience is seamless for the customer.

4. Everything in Stock. Ready to Ship. Easy to Buy.

Industrial customers don't want delays — and we don't create them.
Bluestreak is built on **speed and simplicity**:

- ✓ **All products in stock**
- ✓ **All parts in stock**
- ✓ **Buy anytime online** with transparent pricing
- ✓ **Fast shipping** with tracking
- ✓ **No waiting for backorders**
- ✓ **No complicated dealer-only systems**
- ✓ **Immediate online parts ordering**

This is part of our augmented product philosophy:

5. Helping You Reduce, Reuse, and Recycle

Your business is under pressure to reduce waste, improve safety, increase efficiency, and meet sustainability expectations.

Our equipment helps you do exactly that:

Reduce

- ✓ Decrease equipment damage and downtime
- ✓ Extend the life of tires, vehicles, components, and infrastructure
- ✓ Minimize the consumption of replacement materials

Reuse

- ✓ Support collection and reuse of steel shot and other materials
- ✓ Fit into circular workflows that recover value from used resources

Recycle

- ✓ Sort materials more effectively with magnetic, mechanical, and sensor based systems
- ✓ Increase throughput and efficiency in recycling operations
- ✓ Provide cleaner, more recoverable waste streams

Our products contribute not just to surface level cleaning — but to **long-term environmental and economic sustainability.**

6. Exceptional Customer Experience — Start to Finish

We don't hide behind layers of distributors or complex service networks.

We make it easy to work with us:

- ✓ Fast and knowledgeable support
- ✓ Clear product information
- ✓ Engineers who listen to your needs
- ✓ Real humans who answer the phone
- ✓ Honest solutions that put your results first
- ✓ No games, no fine print, no runaround

Customers routinely say that **we make things simple** — and that's exactly how we designed our business.

Bluestreak equipment

What This Means for You

When you choose Bluestreak, you get:

- ✓ **Products that actually work for your application**
- ✓ **Lower lifetime ownership costs**
- ✓ **Faster procurement and easier maintenance**
- ✓ **Higher productivity and safety**
- ✓ **Equipment designed with real-world intelligence**
- ✓ **A partner committed to solving your problems**
- ✓ **A direct contribution to reducing waste and supporting sustainability**

We build equipment that works harder, lasts longer, and helps you operate more efficiently — all while making it easy every step of the way.

Bluestreak Equipment

Purpose Built Design. Smart Features. Durable Performance.

Making it easy to Reduce • Reuse • Recycle.
